# ABOUT MARTY

## THE BIRTH OF A LEADER

Marty Griptite is an artist based out of Saint Louis, Missouri with talents that have no limit. Since Emerging into the music scene as a battle rapper extraordinaire in late 1999 early 2000, his growth in songwriting, production, and the music industry has been parallel to none.

Marty has a style that is derived from many of his influences in the music industry such as Mannie fresh, Timbaland, Twista, and even acts far back as the Stylistic and The Dells. "It's always about the feeling of a song," says Marty, "You may not remember the words but you do remember the feeling when you hear that song."

With the promise of a better future and the hope of many in his corner, Marty continues to push forward in attempts to create a Midwest Sound that has never been heard before. Now signed with TBeats Entertainment, Marty Griptite is the name to be on lookout for in the present days to come.
